

75% of people who have hepatitis C don't know it.

The Sonoma County Hepatitis C Task Force
in partnership with the American Liver Foundation
and Kaiser Permanente Santa Rosa

Present:

Hepatitis C 2003: *What You Need to Know*

Tues., Sept. 30 • 5:30 – 8:00 p.m.

Finley Community Center • 2060 College Ave., Santa Rosa

Attend this FREE seminar if you:

- Injected or snorted drugs, even once
- Received a blood transfusion or organ transplant before 1992
- Had tattooing or body piercing
- Had unprotected sex with multiple partners
- Shared a razor or toothbrush with an HCV-infected person
- Are a Vietnam or a combat zone veteran
- Are a health or public safety worker
- Are living with hepatitis C

Learn from physicians and other health experts new information about hepatitis C prevention, testing, treatment and community resources.
